

# CBQB & Cancer Center Journal Club

The Center for Bioinformatics and Quantitative Biology and Cancer Center have teamed up to launch a new Journal Club for students

Members of the journal club will be able to discuss interesting papers from the worlds of bioinformatics and quantitative modeling.

Keep up-to-date with recently published literature

Improving critique skills and communication skills

Build relationships with fellow students and faculty

The club is open to all undergraduate and graduate students who are interested in modeling and bioinformatics.

Topics/areas suggested but not limited :  
Biotechnology methods  
Quantitative/statistical methods  
System biology  
Gene regulation  
Omics

Please visit [go.uic.edu/cbqbjournalclub](http://go.uic.edu/cbqbjournalclub) for more info on joining and the first meeting!
